

We believe our world needs change.
Today we are rising up
to become that change;
enabling wisdom together.

At Geelong Grammar School
we do things differently;
knowing it takes more than theory
to make an impact beyond the classroom.

We stay true to our foundations:
strengthening our learners with humanity,
energising them through collaboration, and
entrusting them with independence.

We embrace failure courageously,
accepting every misstep as a chance to thrive:
we champion curiosity and compassion –
out of both we discover possibility.

It's only together we can improve each other:
through real-world relationships and experiences;
through fellowship formed in the face of adversity
we make a positive difference.

Join us as we learn, develop and commit:
learning to venture with and through nature,
developing towards purposeful wellbeing, and
committing to proficiency and discernment.

Join us as we rise up.
Rise to the challenges of a generation.
Rise above indifference and distraction.
Rise to embrace inclusivity and opportunity.

Rise up and
together, we enable wisdom.
Rise up together
and shape a better world.
