

GEE LONG GRAMMAR SCHOOL®
EXCEPTIONAL EDUCATION

Thursday 10 February 2022

Dear Families and Friends of Geelong Grammar School (GGS),

COVID-19 (Novel Coronavirus) – Update #5 as at 12.30pm on Thursday 10 February

Further to my Update yesterday, I am delighted to confirm that a team from Barwon Health, inclusive of Victoria's Deputy Chief Health Officer, honoured their long-standing commitment to visit our Corio campus today to better understand Geelong Grammar's unique residential environment.

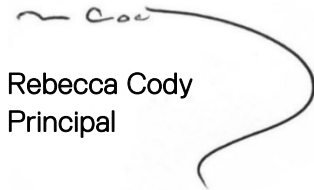

The team was highly professional and quick to appreciate our specific needs within the context of the Omicron variant.

Our time together was positive and constructive.

The Executive team and our Senior Medical Officer will now finalise the outcomes of our meeting with the Barwon Health representatives. We are keen to record our shared understandings and then publish these for our broader community as soon as is practicable.

In the meantime, I wish to again applaud our extraordinary staff who generously and selflessly care for our young people amidst ever evolving conditions.

Yours sincerely,

Rebecca Cody
Principal
